
Homework 9: Program IV.2

Maryam Bahrani (mbahrani)

5/5

The plot can be produced using the following client for the java complex function drawing template:

```
public Complex eval(Complex z)
{
    Complex one = new Complex(1, 0);
    Complex d = one.divides(
        (one.minus(z)).times(
            one.minus(
                (one.divides(
                    one.minus(z)).log()))));
    return d;
}
```
